2nd World Congress on Thyroid Cancer
an international meeting on thyroid cancer and nodules
July 10-14, 2013
Sheraton Centre Toronto
123 Queen Street, West Toronto, Canada

A Skills Course for Thyroidectomy Utilizing Harmonic Energy
Wednesday July 10th, 2013

Faculty

David J. Terris, M.D., F.A.C.S.
Edward S. Porubsky Distinguished Professor and Chairman of the Department of Otolaryngology – HNS, Medical College of Georgia

Paolo Miccoli, MD - Professor of General Surgery and Director of the Department of Surgery at Pisa, University, Pisa, Italy.

Claudio R. Cernea, MD – Professor, University of São Paulo Medical School, São Paulo, Brazil; Department of Head and Neck Surgery

David Goldberg, MD, Professor of Surgery and Oncology, Director of Head and Neck Surgery, Penn State Hershey Medical Center

Gregory W. Randolph, MD - Associate Professor of Otolaryngology HNS, Harvard Medical School, Boston.

Jatin P. Shah, MD - Professor of Surgery at Cornell University, Chief of the Head and Neck Service, The Elliott W. Strong Chair in Head and Neck Oncology at MSKCC, New York.

Ashok R. Shaha, MD - Attending Surgeon on the Head and Neck Service at MSKCC, Jatin P. Shah Chair in Head and Neck Surgery

Ian J. Witterick, MD – Professor and Chair, Department of Otolaryngology-HNS, University of Toronto.

Yvonne Chan, MD - Assistant Professor, Department of Otolaryngology-Head & Neck Surgery, University of Toronto

Objectives

Upon completion of this course, attendees will learn Science of Energy principles, surgical techniques for both open and MIVAT approach. Each participant will receive hands-on experience with new technologies to increase efficiency and precision providing safe and positive outcomes for the patient

Who Should Attend?

Otolaryngology, General and Endocrine Surgeons

Agenda – 1:00pm – 5:00pm

•Rehearsal Ballroom, Hotel Pantages, directly across from Li Ka Shing Knowledge Institute
  1:00pm: Welcome Lunch

•Didactic – Featuring Dr. David Terris and Dr. Paolo Miccoli

•Li Ka Shing Knowledge Institute: Transition across the street
  2:30pm: Concurrent Rotations 2:30pm, 3:30pm and 4:30pm
  •All Rotations facilitated by World renowned Faculty

  ROTATION 1: MEETING ROOM 1
  •Round Table Discussion Room including Case studies. Also featuring Harmonic Technology, Nerve Monitor for lab preparation

  ROTATION 2: VIVARIUM
  •Hands-on Porcine Lab Rotation, includes comparative anatomy discussion to conduct simulated thyroidectomy, simulated parotidectomy, simulated tonsillectomy to gain a robust experience with Harmonic technology.

  ROTATION 3: MEETING ROOM 2
  •Post Lab Debrief, Questions & Answers
  •Adjournment

Registration

http://thyroidworldcongress.com/
Registration proceeds will go towards the sponsorship of resident and fellow registration fees.

This educational event is sponsored by Ethicon to provide training on the safe and effective use of its products in surgical procedures.
